LONG DROUTH IS BROKEN

Rain General Over United States,

Bringing Relief.

Front, Killing in Character, Falls Over Kansas, Missourt and Even in Texas-Rain in the Enet.

Hope at last is seemingly justified that he drouth which has prevailed over the intire eastern section of the United States for months is about to be broken. Although only light rains have fallen thus far, the recipitation has been general over the entire affected area. While it has not yet been of sufficient volume to have any marked effect on the disastrous forest and brush fires which have been sweeping hundreds of thousands of acres, or on water ourses, which have fallen to the lowest points in many years, the prospect of heavier and continued rains throughout the east is held out by weather forecasters. If these expectations are realized the work of the fire fighters will be relieved, the wheels of many factories which ceased to turn because of lack of water power will again become active and farmers, for the first time in many weeks, will be assured adequate supplies of water for their live stock.

WASHINGTON, Sept. 28.—The breaking of the prolonged drouth throughout the country is announced in reports to the weather bureau today. Rain has fallen generally in the United States and Foreaster Garriott of the weather bureau announced early today that it would continue today and tomorrow through the eastern states, followed by clear and decidedly cobler weather. The rains now prevailing n the territory east of the Mississiphi river started in the far west several days ago. PHILADELPHIA, Sept. 28.-Rain began falling throughout eastern Pennsylvania early today. The present rain is expected to moisten the soil sufficiently to save

crops that have not already been ruined by

MINISTER PLEADS FOR LIFE Dr. Loveland Tells of His Experience

with Felix Blankenfeld, a Would-Be Suicide. An appeal to the congregation of the

First Methodist Episcopal church Sunday morning in behalf of Felix Blankenfeld. the aged musician, met with a liberal response. Blankenfeld attempted to kill himself Friday by taking an enormous quantty of digitalia.

Rev. Frank L. Loveland, D. D., who has long taken an active interest in Blankenfeld's behalf, used effectively an appeal he had made to the old man to libustrate the theme of his sermon. "Night before last," said the minister, "I was called to see a wreck of humanity, who reminded of an old but in which the windows had been smashed in, the door-panels cracked, the floor rotting and the plaster fallen from the walls.

Only a thin curl of ascending smoke yould give sign that this old but was still enanted by a human inhabitant. This sign looked for in the shipwrecked man who lay before me. I appealed to his courage, his sense of manhood, to his hope for the future, and as I met with no response, wondered whether there was any fire eft on the hearthstone of this life. Then I began to think of his mother.

As the boy roused the infant, it gave vent to a plain tive cry. Its mother, of course, heard "That mother," said Hugo, "must

have been very dead." The text of the sermon was from the sixty-sixth chapter of Isalah, "As a mother comforteth her children, so will I comfort Dr. Loveland's chief thesis was, upon a loving and heneficent delty would be rejected of men and deservedly so. He concluded by saving "Heloved, you can trust a God who made a good mother." It was announced during the service that subscriptions to the current expense fund of the church had been ample and would leave a balance, after all obligations had

Prospects are excellent for the sending Felix Blankenfeld to a sanitarium. Not more than \$150 or \$100 at the least, a necessary to give the old musician a chance to recuperate mentally as well as physically at some institution. The offering at the First Methodist church was announced by Dr. Loveland Monday, as \$18. This is not an inconsiderable sum for the collection taken was the second of the service, and many members of the congregation had, according to the custom, brought to church only the sum they expected to put in the regular offering. Dr. Loveland received word-during the day that several former pupils of the old teacher had had their attention called to the work and were going to subscribe. It is hoped to send Blankenfeld to a sanitarlum for four or five weeks. It is believed a stay of this length will be sufficient to restore him to good health and to renewed ambitions.

Explosion Wrecks Room. FALLS CITY, Neb., Sept. 28.—(Special.) An explosion of an pil stove caused con sideable damage at the home of Henry Bean in the east part of town Sunday afternoon. Mrs. Bean, who is an invalid. was sitting in an invalid's chair near the stove at the time of the explosion and was severely burned, especially about the face. She was wearing a celluloid back comb at the time, so her hair was almost completely burned. Mr. Bean was badly burned in carrying her to a place of safety. It is thought, however, that both will recover. The room in which they were sitting is a total wreck, but the rest of the house was not damaged to any great extent.

People in this section of Nebrasia will e interested in the contract which has een let for the removal of all the bodies buried at the famous old post at Fort Yates, N. D. The post was one of the most historic in the west in the frontier days, and many a noted Indian fighter and scout was buried there, including old Sitting Bull. Among the bodies to be taken up is that of George Belden, a chief. He was a white man who was adopted into the Ute tribe. In the early days of the old Nebraska town of Brownville Belden was a printer who worked on the pioneer publication, the old Brown ville Advertiser, published and edited by the late Governor Robert Furnas. After leaving Brownville Belden went to the far west, wrote a book of his experiences as a scout, Indian fighter and chief. He
